

Prophetic Focus of January 2021

By Apostle John E. Sagoe

Topic: Divine Acceleration

Key verse: John 11:29 (NKJV)

As soon as she heard that, she arose quickly and came to Him.

Generally there is going to be an **increase of spiritual battles this year**. The battles are going to be won first in the spiritual realm before they can manifest physically.

Watch out for the first 4 months of this year which carry each a specific assignment:

- **January:** A month of **Divine Acceleration** where many people will see acceleration in their lives. Things will move in an unexpected speed and we will do things we never imagined we could do. **The atmosphere will be full of supernatural activities.**
- February: Divine Protection
- March: Divine Direction
- April: Divine Provision

Prophecies for the year 2021

General:

- The **transformation in our world will continue** and things will accelerate and change very fast in the area of technology as well as spiritually and physically. We should not worry or panic for God is in control and will see us through every change and every situation.

Church:

- I see an **unusual manifestation of God on earth** this year.
- **People and the society will look onto the church**, not only for spiritual assistance and direction, but also for godly wisdom.
- There will be **a lot of manifestation of greatness** coming out of the church this year. The People of God will start rising in different aspects of life:
 - o The signs and wonders manifesting in different churches around the world will almost look like a **healing and miracle revival**. By looking onto God we will see the fire burning more and more, and it will particularly flame up in nations that accept God as their god.
 - o There will be a lot of **creativity** rising in the Church as God will give His people direction. By this the Church will overcome every limitation and stigma that the world has put on us in the past years.
- The Church has to be careful because of the **spirit of pride that is going to rise** in the same level and that can affect the move of God. Let us watch our hearts and be careful not to forget the *God* that is behind great manifestations.
- God will be guiding His people in **having results** this year.
- He will pick up again those that have fallen, and if they humble themselves, He will put them back in the Church where they belong to. It is a year where **God will honor His church** like never before.
- I see a **year of spiritual eye opening** like never before.

- The quest of this year is based on the **spiritual war**, and many things – good and bad – will be decided in the spiritual world. This will then manifest in the physical.
On this account I saw **different nations going to war** physically. We must pray for the Body of Christ to win in the spiritual war so that those key nations won't be affected.
- There will be an amazing encounter with the **Antichrist spirit**. We need to be careful not to fall victim to it, for the recruiting has begun at a very high speed.
- Note: When we say Year of **Acceleration** it is **general**, meaning both in God's realm as well as in the devil's. So we will need protection and the spiritual armor like never before.
- This year God is raising **key people** in the Christendom **around the world** that will unite for **spiritual gate keeping** in order to stop every calamity and every arrow the enemy has positioned against the Body of Christ. I see it bringing real order to the Body of Christ on a global, national and even on church level. Let us pray as this will also lift up the image of the Church.

Politics:

- I hear the Lord say we should **continue to pray for our politicians**:
 - I see **serious confusion** rising in many governments this year. This lack of understanding will bring disagreement in parliaments which will seriously **affect the decision making** of nations. Therefore a lot of things will be put on hold or even brought backwards.
 - This year politicians will make **crazy laws** that are so incredible we can hardly believe it.

Nations of the world:

- I hear that many nations **will not recover** this year **from the damage of coronavirus**.
- **Nations will begin to threaten others** for not really weighty reasons. This will become very worrying and challenging for our world, but God will see us through in Jesus' name.
- We should watch out for and pray against an **increase of terroristic attacks**.

Medical field:

- I hear **the confusion continues** this year with all kinds of arguments and misunderstandings. We are trusting God to bring us out of this medical scandal.
- Business will heavily increase in the **pharmaceutical sector**, but it is not going to please the people. I see **uprisings against the medical industry** and their professionals. I see division also among health professionals.

Swiss economy:

- Let us continue to pray because **God will continue to increase us**.
- Let us not panic about financial crisis for God will give us victory this year. **We will recover speedily from the corona crisis** and we will go back to better than where we were before.
- I see good news for Swiss economy, investors and companies: I see doors open for more foreign investments in **real estate** in Switzerland, even like a booming business.

Scriptures to study this month:

John 11, II Kings 9 & 4, Isaiah 8 & 30, Amos 2, Ecclesiastes 9, Habakkuk 1, Daniel 8, Nahum 2, Matthew 28, Malachi 3, Mark 2, Zephaniah 1, Romans 11
