

The name of JESUS stands for us, amongst others, for:

J for just and faithful
E for eternal saviour
S for the source of life
U for unfailing love
S for the shepherd of our soul

Prophetic word for 2025

Body of Christ globally

Raising of individual leaders

Good news! It is the year **God is raising individuals to lead** in the Lord's assignment. This year is marking the beginning of five years of raising new leaders in the Kingdom with specialised ministries. Like for example, we are going to be seeing **unusual healing ministries** that will move across the world. I see it **like a wave coming from Africa**, moving to America, moving to Europe and then moving to the rest of the world. That's how I saw it in the realms of the spirit moving.

We will see the rising of these **healing evangelists**. And we will see them conduct healings, ministries and crusades like in the days of old, but more powerful. So healing services where thousands will experience miraculous healings are going to rise more and more again in our midst. But then I also see a **new dimension of healing rooms**, a new dimension. This time the healing rooms are not focusing on a ministry, but they will be focusing on Jesus. And I see God raising people from different parts of Europe to be able to carry that mantle and that grace to move in that dimension of ministry across Europe.

But don't forget again, God is raising a tremendous healing ministry across the world.

Then number three, we will also see **ministry that emphasizes on intimacy with the Holy Spirit** rising, which will liberate many people in their faith again in Jesus.

Then I also see God raising in the Kingdom **educators**. They will found Bible institutes, universities, schools. They are rising, more especially in Europe, to lead the people of God into a godly way of education. So I see Christian schools in the rise in Europe.

This year, **God is also raising revivalists**, not only healing revivalists, but revivalists again. So more and more people will carry that mantle of revival and they will be ready to pay the price in order to see that move of God in our midst. And this coming anointing or mantle of revivalists - or revival - will come with tremendous spiritual gifts. I also see how many, many lives are going to be transformed and many prayer lives are going to be deepened. Amen.

But I also see a move of **young people**, but also people in the middle age that are still very vibrant, **rising in an unshakable faith** this year. And don't forget this assignment is for the next five years in the Body of Christ. We're going to see people rising in an unshakable faith. They will trust God in every circumstance and God is going to show up for them.

But then I also hear that it's a year where we're going to see a **battle line drawn spiritually**. So it's going to be like the days of Elijah and the prophets of Baal, where God is going to show up again and show His power in the midst of His people.

But then another thing that I saw that is quite interesting is that I saw for the Body of Christ **this deep longing and love for the Scripture**. There will be a very strong value for the Bible. And I see in the realms of the spirit that more and more the **paper Bible** is coming back to circulation. Because the Lord revealed to me that there is a certain power that is in the paper Bible that the Body of Christ is losing. So I see the paper Bible coming back to circulation again. And it will have a solid authority.

And then I also see a lot of people in the Body of Christ developing a **servant heart**. This year and in the next five years, people develop a servant heart, which moves them into dedicating their lives to serving others. Amen.

Mantles

And then what I saw is that **mantles are being released** in our world today and many, many **people that have gone ahead of us that were like fathers of faith or mothers of faith**, and their mantles are not being carried or their gifts are not being replicated.

I saw God giving the Body of Christ the chance again to catch those mantles. So I see people rising in those dimensions of Smith Wigglesworth and all those giants that have gone to be with the Lord. And even some of the people will be operating more than that dimension. So let us keep it in prayer, because we are in a new season in the Kingdom. God is **preparing the generation that will finish the work before the second coming of our Lord Jesus Christ**. Amen. So that mantle is the mantle for the last battle. So it will come on our younger generation.

And then Jesus is bringing His **Church into spiritual alignment** this year.

We will experience **increase in creative abilities**.

The Church will overcome the work of darkness because God is calling the **Church not to be afraid of challenges**. Because God wants to give us victory whenever the occasion arises that we have to face opposition. I also see **more authority to take more ground** and occupy more territory for the Kingdom of God.

So it's a year of elevation for the Church and also impact.

But then I also saw something that is not too good news, which happens to be a **separation between churches that are moving in the spirit and those churches that are moving in the flesh**. I call it the Ishmael and Isaac spirits.

So let's pray for churches to **overcome persecution**, and even: more churches will come under **closure** this year. Let us pray for them to overcome that. Because I see that God is going to vindicate His Church. Let me repeat that again: I saw this year that there will be persecutions that will cause some churches to be closed down. But let us keep praying because God will vindicate His Church in some nations, not in every nation that persecution will come.

General prophecies

I see **a lot of tension** here and there generally in our world, but it will not result into a world war. Because this year, the world is going to go into **a lot of negotiation and settlement**. So it's a year where leaders will try to seek for peace. So let us pray that the Prince of Peace, Jesus Christ, will preside over the world.

Then during our leadership retreat in November this year in our headquarters here in Switzerland, we received a word I just want to chip in here because I think it's important for 2025: We have to pray and be more alert about the food that we eat, because we see **more food that will contain poison** in 2025. So we have to be prayerful and also vigilant and observant.

Prophecy for the nation of Switzerland

Medical area

We have to pray for again **our medical institutions**, for the **right equipment** this time and the right services for the increase of health challenges.

I see in this year, there's going to be **an increase in health challenges** that is also **complicated**. So there should be an upgrade in our medical sector to keep up the challenges that is coming. I am not necessarily saying it's going to be a pandemic, but I'm saying that different health challenges are rising in the nation. But lack of proper medical equipment and right services will cause more damage than help.

But then also I hear that the Church should take serious or stand in their gap or in their road to **take praying for healing serious in the churches** this year in Switzerland, because God will glorify Himself by also giving us supernatural healings. And this can become **a strategy of winning many souls** into the Kingdom. Because that which the medical world cannot handle, the Kingdom will handle it.

Economy

And then financially for Switzerland: **I see a stable year financially and economically.**

I see also at a time in the year - and probably this will maybe get clearer as we pray during the year, because I didn't see the exact time - but I see at a time in the year there's going to be **a falling of stock market**. But I hear the Lord say, He will give His people victory through the right timing for investment in that period.

But I also see this will be a global thing. Because generally economically or financially this year will not be as stable as it is in the global world. Generally for Switzerland I see a good financial year. But I also see a challenge with the stock market. But I also see that the world will be under financial challenge. I see how **the whole world will suffer from financial crisis**. But we thank God that He has told us that **our nation will continue to do well**. Why? Because I see **an increase in our services because Switzerland is a service providing country**.

I'm still in the area of economy. I hear we should **pray for our farmers** this year, for I see a difficult year ahead that also is related to climate change, weather-related problems.

So let us pray that God will give the farmers **wisdom - like He gave to Joseph** in the time of famine in Egypt - **supernaturally**. So let us carry our farmers in prayer and bless their work. Then I see blessings also in overcoming those challenges, because in the midst of these challenges **creative ideas and**

divine inspiration on solutions will also emerge. More especially for Christian farmers, we're going to pray that God will help them to rise.

Different nations of the world

Israel and Hamas and Ukraine and Russia

It will be a year of **exposure of war crime**. For those that are benefiting from the ongoing wars in those nations, both in the Middle East and in the Ukraine and Russia, both national and international, God said **it's a year of judgement for the evil leaders**.

Ghana

God is calling the nation to **stop political campaign and focus on rebuilding the nation**. Because I see how they will continue to do politics, even though they just finished their presidential and parliamentary elections. And they will continue to campaign and continue to do politics already for the next four years, which is not good for the government and for the nation. Because it will set the nation backwards instead of bringing them forward.

But still in Ghana I see **a year of invention for the nation** as more and more investors will be rising within the nation and also outside the nation. And also there is going to be a year where the nation will have the **opportunity to do export**, which will be of a benefit for the economy of the nation.

Germany

2025 is a year of **wake-up call** for Germany, sayeth the Lord. So let's pray because I see the **spiritual climate in Germany changing** and I see the **dead lion rising**.

And I see the Lord using His children to plough the ground and do more exploit for the Kingdom and I hear that the religious spirit is crumbling down in Germany.

But I also see the **dark world rising** against the people that are double-minded, that cannot decide if they will go all the way with the Christian walk, or not.

But what I saw rising more and more, were **churches in Germany that have been in a particular pattern, radically changing**. So I see breaking out of old patterns and old systems. And initially, it will look like there is a conflict in the church. Because some people will rise, others will be against it. But at the end, it's because of the direction God wants to lead the church.

So God says to many, many churches like this in Germany, **"it's time to change the clothes"**. The old clothes are going away", which represent the old wine skin. A new cloth, new wine skin is coming on. So we will hear things like almost division in the church, but it's for a good cause.

I see **ministries that have been** spiritually and physically **oppressed** in Germany for a long time, are going rise to the surface. And God will use His people in a special way this year. I see a strong movement of the Holy Spirit rising in Germany.

I see **internal crisis** in the nation. Probably what is happening spiritually is going to manifest in their politics also. So I'm seeing **also political confusion** in Germany. So let's pray for Germany for peace so that they can be able to focus and fulfill God's assignment this year.

Austria

I hear "Watch out", says the Lord, "for **new leaders that are emerging from Austria in the seven mountains of the society** and they are going to become captains of industries". And these leaders are also going to be used of God to **channel a move of God into different parts of the nation** like it has not been seen before. From what I'm hearing, it's like the door that was closed spiritually against

Austria is going to be opened and that nation is going to see - if it is not this year, it will be in the next five years... **Austria will experience revival for the first time!**

And don't forget when we talk about revival, we are not just talking about a little move of God here, a little move of God here. We are talking about something that will sweep across a region or sweep even across a nation.

So spiritually, I also hear that **God is calling the existing leaders and churches** that are upcoming **to receive a blessing like a transfer of mantle from the older leaders**. Let me explain it again: I see in the realms of the spirit where the older leaders are practically pronouncing blessings upon the younger leaders so that they can fulfill their God-given assignment. So **the right spiritual order is going to come** so that not the older leaders are dying or retiring without blessing the younger ones.

I pray that will go across Europe.

I saw that the Lord will be bringing up **these new leaders** and they will be going **again back into mission**. So I see them even going into new countries and they will be vibrant and building also **vibrant churches in Austria**.

United States of America

I hear the Lord say that we have to pray for Donald Trump. Because **this administration of Donald Trump** is going to face more hardship, **is going to be tougher than his first presidency**. He will be fighting a **three-dimensional war**, I heard, **at the same time**:

1. One is going to be **physical opposition** and **within the United States of America** that will not want him to succeed, including politically and individually. So they will not want him to succeed politically and individually.
2. The second war he will be fighting is that he will be facing the war, **physical war that is around the world**. Example Ukraine and Russia, Israel and the Middle East, and the rest of the small ones that nobody talks about.
3. And then the third war he will be fighting, and this is where the church should come in, is a **spiritual war**. So that he do not carry out the agenda of God in the United States. Because the **evil societies**, the secret societies, **will not want him to bring godliness** into that nation the way God has planned it for him.

So let us pray that he will rise for those occasions.

Great Britain, United Kingdom.

The Lord is calling us to pray. When I came to Great Britain I hear the Lord say, we should **pray for royal families** and also **for presidents of the world against sudden tragedies**. Because I see a lot of attacks in the area of health for the people on the top - royal families and presidents - this year. And therefore, I believe that as we pray, God is going to give victory and it's really urgent.

Economy of the world

2025, I see **more economical challenges than ever before**. I've mentioned it before, but I want to go into more detail because I see step by step how different economies in different nations will be crumbling down and having hardship because **more** nations are going to go in **debt** this year **than ever before**.

And then I also see that there are going to **be more and more challenges in the area of international business**, more especially for the nations that do **not really have enough resources**.

And I see **wrong investments** in many different nations that will **result also to crises** in their nations.

I see among politicians and government, **it will be a year of seeking for political unity and alignment** with other politicians for overcoming the situations that will be facing the world economically this time. Because any party that wants to do it alone will find it difficult to succeed. So it's going to be a **collective effort of partnership** within the nation and also outside the nation.

So any country that will open up economically and politically to be able to partner with the right people, **will succeed**. I also see that **this partnership will come up more and more strategically** and it will be a **blessing to many nations** that go in that direction.

Again, we are in a year in the world where we will have to face some financial challenges. Let us pray and God will give us victory.

That's it for now. Let's give Jesus a big clap offering. Hallelujah!
