

Prophetic Focus of November 2023

By Apostle John E. Sagoe

Topic: God Is Able

Key verse: Ephesians 3:20

Now to Him who is able to do exceedingly abundantly above all that we ask or think, according to the power that works in us

This month **God will encourage many people with His mighty power** because we are living in the time where His authority is manifesting like never before in the Church.

I hear the Lord say we need to **watch out for surprising occurrences in our world**, also because of the ongoing war between Israel and the Hamas.

The Lord told us already in January that *this year will be full of surprises*, but He will go with us and give us victory [*Do not worry, I will go with you and give you maximum protection*].

„I will open the Heavens and lift you up, I will do unusual miracles in your lives“, sayeth the Lord.

Inasmuch as more conflicts are still rising in many nations of the world, as it has also already been prophesied this year [*I smell conflicts in most of the nations of the world*] there will **also be an increase of God's power and grace**.

This month I also see **supernatural wealth and wealth transfer taking place in Kingdom economy**. Between now and the end of the year we will see people's income grow miraculously, because God is at work.

I also see **many ways God will show His power in our lives** this month and beyond:

1. God will **faithfully provide** for His people in every area of life, according to Philippians 4:19
2. God will faithfully **uplift and encourage** His people in times of difficulties and struggles this month like never before
3. God will be **comforting** His people in the area of loss of loved ones or loss of anything precious to them
4. God will be **strengthening the weak** among us this month more than ever before
5. God will be sending **support from where we do not expect it** to our various churches and families like never before
6. God will be **filling His church with the Holy Spirit beyond human imagination** more than ever before
7. God will be empowering us to be able to **position ourselves to help those that are weak** in the society. More especially I see a lot of help to the Gentiles or unbelievers like never before in this season
8. I see a season of redemption of souls: For many souls that have already given their lives to Christ and are now going down or getting weak, this is going to be a month where **God is redeeming them**, and all the **backsliders will begin to find their way back to the Kingdom**. The joy to worship God will come back
9. I see God helping people to **recover from any debt that they are owing**, both spiritually and physically: God will help people to overcome any sinful nature which is like a debt. And I also see God helping people to pay their financial debt this season
10. **A time of repentance** will be coming **very strong across the Church** that will cause many dead things to begin to resurrect. This will start by us tapping into the power of God in this season through reading the Word of God, responding to it and then making ourselves available for spreading the Word of the Lord in this time and season

Prophecies of the Year 2023 to continue to pray for:

Politicians and governments in general

I smell conflicts in most of the nations of the world.

- **Political confusion will increase this year** in different nations of the world like we have not seen it before. It will be like a trend that will almost become normal for many nations.
- A bit worrying and frightening is the **high level of betrayal that is on increase** among politicians.
- Likewise there will be an **exposure of political evildoers**. The Lord is saying that He will expose them seriously this year.
- Many governments will be fighting an **economic battle for survival**.

Switzerland

- A **spirit of depression will be on increase among politicians and governments**, the leaders in the land. The stress at work and in their assignment will increase the volume of depression. Therefore we have to pray for them.
- This results into a **spirit of procrastination and delay for lawmakers** in making decisions, as much of it is also engineered by **fears of failure**.
- **Critical decisions** are ahead this year in order **to move the nation forward** and to put the people in a better position because of **the coming economic crisis**. The decisions will among others have to do with
 - 1- Border-related issues
 - 2- Issues related to consumer products
