

Prophetic Focus of June 2024

By Apostle John E. Sagoe

Topic: His voice

Key verse: Psalm 29:4

The voice of the Lord is powerful; the voice of the Lord is full of majesty.

Welcome to the **month of hearing the voice of God!**

This month we have to **pay attention to the voices that we are hearing.**

God is drawing our attention to the voices which are seeking to influence our daily lives and conversations. These are the voices of the world, of the flesh, of the devil and finally the voice of the Holy Spirit or the voice of God.

How good it is to know that the last voice is the most powerful among the four! For this reason, God wants us to focus on the ability to hear His voice more than ever before this month.

As it has already been prophesied, the activities of evil are on increase in 2024. But we know that according to the word of God in Psalm 29:4 **His voice is powerful.** It is even **more powerful than all the other three voices combined.**

This month we should expect that **His voice will give us guidance, direction, wisdom and revelation.** I see a season of divine guidance through His voice.

Prophetic warning for this season:

- Let us be reminded to **pray against all kinds of water accidents** in this summer
- Let us pray for **people that are 40 years and above** for divine protection more than ever before this year
- Let us pray for **key leaders** for protection, guidance and divine revelations
- Let us pray that **evil leaders** will continue to be **exposed** this year

Prophetic blessings for this season:

- Let us pray for the **blessings of the work of our hands** to manifest
- Let us pray for the **prophetic words over our lives** this year to manifest
- Let us pray for **divine favor** in our lives this year
- Let us pray that we **can be rooted more than ever before in the Kingdom** to overcome every attack or danger
- Let us pray for the **manifestation of all the good seeds** that we are sowing this year

Good news:

As this month we are focusing on His voice, we will see more and more a *manifestation* of the prophetic words and declarations in our services.

Prophecy of the year 2024 to continue to pray for:

- Politicians and governments:

I see that the **political climate or atmosphere in different nations** of the world is going to be filled with **surprises** this year – in different nations that are **running out of options** for economic, welfare or development strategies of their nations. Therefore, there will be an open cry for help from many nations.

Some countries with elections this year will be confronted with **new** election laws and other **new laws that will not go down well**.

So I see **a lot of rioting** in different nations this year, more especially in those nations that are having presidential elections. However, **I see some new governments taking over and revising old laws to help their nation to move forward**.
